SUBJECT INDEX FOR VOLUME 28, NUMBERS 1–6, 1969

A

Abstracts
  North Atlantic Section, A.S.A.S., 871
  Southern Section, A.S.A.S., 125
  Western Section, A.S.A.S., 853
AC^{14} collection system
  For cattle and its effect on EKG and respiratory patterns, 38
Adrenalectomized rabbits
  Embryonic survival in, following exposure to elevated ambient temperature and constant humidity, 80
Adrenocortical lipid
  Environment-induced, in "stress-susceptible" pigs, 70
Age, effect of
  On avoidance learning in pigs, 175
Alcoholic solutions
  Unilateral effect of intrauterine injection of, on the corpus luteum of the ewe, 63
Alfalfa
  An *in vitro* technique for evaluation of bloat potential of, 802
Ammonia, atmospheric
  Effects of, on the pig, 844
Ammonia production
  Nitrogen metabolism in ruminants: Rate of ruminal, and nitrogen utilization by ruminants—a review, 689
Anastomosis
  Esophageal abomasal, in lambs, 34
Animal production
  The future of, 116
Antibacterials
  Effectiveness of, infused into the proximal colon on the pig, 13
Appetite suppression
  In hamsters and swine fed a dithiocarbamoylhydrazine (ICI 33828), 359
Apple pomace
  DDT residues in beef cows fed, 418
Avoidance learning
  Effects of age on, in pigs, 175

B

Barley
  Digestibility of dry rolled and steam processed flaked, 425
Barley fractions
  Energy value of, 397
Beef carcasses
  Retail yield comparison of average good and average choice conformation, 187
Birthweight of beef calves
  Maternal and other effects on, 162
Bloat prevention
  Poloxalene for, in lambs, 819
Blood lactate
  Effect of ration on liver oxidation of racemic lactate and of thiamine on, clearence, 98
Blood plasma of horses
  Effect of diet on concentration of protein, urea nitrogen, sugar and cholesterol of, 216
Boars, untreated and diethylstilbestrol-implanted
  Granular development, hormonal response and boar odor and flavor intensity of, 653
Body composition
  Re-evaluation of the relationship between carcass density and, of beef steers, 1
Bovine lipids
  Influence of sex, liveweight and anatomical location on, I. Fatty acid composition of subcutaneous and intermuscular fat depots, 449
  II. Lipid components and subjective scores of six muscles, 454
Bull spermatozoa
  Volume of stressed, and protoplasmic droplets and the relationship of cell size to motility and fertility, 496

C

Calcium
  Accumulating ability and compositional differences between sarcoplasmic reticulum fractions from normal and pale, soft, exudative porcine muscle, 589
Calcium and phosphorus, levels of
  For growing-finishing swine. 331
Cane molasses
  Studies on liquid hemicellulose and, as carbohydrate sources in urea-containing diets of sheep, 667
Carbadox
  Effects of feeding, upon the growth and performance of young pigs, 208
Carbohydrate sources
  Studies on liquid hemicellulose and cane molasses as, in urea-containing diets of sheep, 667
Carbon dioxide
  Effects of high, levels on nutrition of sheep, 554
Carcass characteristics, lamb
  Evaluation of factors affecting, 305
Carcass composition
  Influence of carcass weight upon, and consumer preference for lamb, 584
  Ultrasonic prediction of swine, 593
Carcass density
  Re-evaluation of the relationship between, and body composition of beef steers, 1
Carcass traits
  Comparison of, of bulls and steers, 742
  Estimation of, by visual appraisal of market livestock, 601
Carcass traits in swine
  Phenotypic and genotypic parameters of some, 168
Changes, histological
  In the cow following progestogens, 761
Colostrum-free pigs
  Rearing, in an automatic feeding device, 27
Composition, nutrient
  Of corn and soybean meal, 459
Composition of beef carcasses
  Changes in, with increasing animal weight, 316
Composition of cuts and carcasses
  Of New Zealand lamb when graded by United States grade standards, 324

Confinement
Activities of lactating beef cows in, 568
Consumer preference
Influence of carcass weight upon carcass composition and, for lamb, 584
Corn for beef cattle
Raw cracked *vs.* expanded gelatinized, 822
Corn in diets
Opaque-2, higher-oil higher-protein and regular, for growing lambs, 103
Corpora lutea
Effect of successive enucleations of bovine, on formation and function of subsequent luteal tissue, 766
Corpora lutea, levels of
Effects of estrogen and progesterone on progesterone, and on pregnancy in heifers, 253
Corpus luteum
Histological changes in the uterine horns during the estrous cycle in the ewe in relation to the proximity of the, 492
Unilateral effect of intrauterine injection of alcoholic solutions on the, of the ewe, 63
Criteria, bull selection
As indicated by sale price, 437
Crossing beef and dairy breeds
Results from, :Calf performance to weaning, 291
Cutability, estimating
Indices for, of wether, ram and ewe lamb carcasses, 180

D

DDT residues
In beef cows fed apple pomace, 418
Diet
Effect of, on concentration of protein, urea nitrogen, sugar and cholesterol of blood plasma of horses, 216
Dietary energy
Some effects of differences in, and protein levels on the ovary and the anterior pituitary gland of the ewe, 57
Diets, molasses-based
Efficiency of utilization for fattening of the metabolizable energy of, 796
Diets, purified and natural
Growth and reproductive performance of bulls and heifers fed, I. Performance for 14 to 189 days of age, 717
II. Effect of diet and urea on electrocardiograph and respiratory patterns, 659
Digestion
Comparison of, in, horses, ponies, rabbits and guinea pigs, 842
Observations on, in the golden hamster, 349
Dithiocarbamoylhydrazine (ICI 33828)
Appetite suppression in hamsters and swine fed a, 359
Diet consumption, bodyweight change, estrus inhibition and reproductive performance in gilts fed a, 353

E

Embryonic survival
In adrenalectomized rabbits following exposure to elevated ambient temperature and constant humidity, 80
Endocrine changes
Pituitary and hypothalamic, during the bovine estrous cycle, 531
Energy and nitrogen evaluation
Of swine diets containing added fat or corn cobs, 615
Energy intake
Effects of, of the dam on reproductive performance development of offspring and carcass characteristics, 465
Energy intake, dietary
Response of swine selected for high and low fatness to a difference in, 197
Energy levels
Influence of, on the utilization of peanut protein-urea nitrogen by cattle and buffalo, 107
Erythrocytic life span
Estimations in growing sheep and swine using ^{75}Se, 240
Estrogen and progesterone
Effects of, on progesterone levels of corpora lutea and on pregnancy in heifers, 253
Estrus in range lambs
And its relationship to lifetime reproductive performance, 246
Ewe, nulliparous and primiparous
Ovulation rate and subsequent lamb production in the, 512

F

Farrowing interval
Effect of reduced, on sow productivity, 76
Fat depots
Influence of sex, liveweight and anatomical location of bovine lipids. I. Fatty acid composition of subcutaneous and intermuscular, 449
Fatness and fresh pork quality
Effect of, on yield and quality of bacon and yield of ham, 612
Feeding frequency, influence of
On lipogenesis and enzymatic activity of adipose tissue and on the performance of pigs, 336
Forage
Effect of varying amounts of, intake on rumination, 827
Influence of, quality on rumination time in sheep, 813
Partitioning the nutrients of, for horses, 624

G

Genetic trend in cattle
Relating progeny superiority to, 577
Genitalia, bovine female
Maturation of, from birth through puberty, 502
Gonadotropin activity
Effect of LH and ovarian hormones on pituitary, in ovariectomized ewes, 550
Growth performance of lambs
Effect of general combining ability and maternal ability of Oxford, Suffolk and North Country Cheviot breeds of sheep on, 155
Growth, preweaning
Of cross-transferred rats, 300
Growth rate, preweaning
Effect of energy intake, cow body size and calf sex on composition and yield of milk by Angus-Holstein cows and, of progeny, 789

H

Hair, Hereford cattle
Effects of irradiation, age, season and color on mineral composition of, 268
Hematocrit values
Relationship of, to selected physiological conditions in dairy cattle, 508
Hematology
Changes in, of the perinatal pig, 517
Hemicellulose, liquid
Studies on, and cane molasses as carbohydrate sources in urea-containing diets of sheep, 667
Heterotic effects
In reproduction and growth to weaning in crosses of the Angus, Hereford and Shorthorn breeds, 431
Histological changes
In the uterine horns during the estrous cycle in the ewe in relation to the proximity of the corpus luteum, 492
Hormone, follicle stimulating
Dose-response relationships in synchronized beef heifers treated with, 638

I

ICI 33828
Effect of various dose levels of, on gilt ovarian function, 227
Indices
Comparison of potassium and other chemical constitutents as, of pork carcass composition, 192
For estimating cutability of wether, ram and ewe lamb carcasses, 180
Insulin, tolerances toward
Relationship between, and ruminal epithelial development in lambs, 364
Intrauterine devices
Effect of bilateral, on some pituitary and ovarian characteristics near the time of ovulation in Holstein heifers, 48
Intrauterine injection
Unilateral effect of, of alcoholic solutions on the corpus luteum of the ewe, 63

L

Lipid components
Influence of sex, liveweight and anatomical location on bovine lipids. II., and subjective scores of six muscles, 449
Litter size of swine
Confined during gestation, 220
Liver oxidation
Effect of ration on, of racemic lactate and of thiamine on blood lactate clearance, 98
Luteal and endometrial phosphatase
Activities during the porcine estrous cycle, 51
Luteal tissue
Effect of successive enucleations of bovine corpora lutea on formation and function of subsequent, 766
Lysine imbalance
Of corn protein in the growing pig, 23

M

Meat quality
Environmental stress and, 755
Methallibure
Induction of estrus and ovulation in swine during pituitary suppression with, 73
Mice
Predicted response to selection for crossbred performance in, 725
Mineral composition
Effects of irradiation, age, season and color on, of Hereford cattle hair, 268
Mineral utilization
Effect of level of soybean protein and ergocalciferol on, by the pig, 342
Muscle pH and tenderness
Effect of antemortem injected phosphate and dietary calcium and phosphorous on, 443
Muscle tissue color
Reflectance as a measure of pork and beef, 750
Muscles
Histochemical and biochemical observations on, from fasted-refed pigs, 746

N

Nematode parasites
Effects of gastrointestinal, on performance in feedlot cattle, 698
Net energy
Of alfalfa and orchardgrass hays at varying stages of maturity, 263
New Zealand lamb
Composition of cuts and carcasses of, when graded by United States grade standards, 324
News and Notes, 153, 288, 429, 573, 723, 882
Nickel toxicity
In young growing mice, 620
Nicotinic acid—Tryptophan
Relationship in the nutrition of the weaning pig, 848
Nitrogen
Influence of energy levels on the utilization of peanut protein-urea, by cattle and buffalo, 107
Nitrogen, abomasal
In steers fed soybean meal or urea, 711
Nitrogen balance
And growth studies of pigs fed *Opaque-2* and normal corn, 478
Nitrogen intake
Relation of, to rumen microbial activity and consumption of low-quality roughage by sheep, 272
Nitrogen metabolism
In ruminants: Rate of ruminal ammonia production and nitrogen utilization by ruminants—a review, 689
Nitrogen, non-protein
Effects of feeding ruminants, as the only nitrogen source, 673
Nitrogen retention
Effect of protein intake on, by swine during late pregnancy, 204
Nutrient intake
Superovulation in prepuberal calves on two levels of, 771
Nutrient utilization
Estimation of alfalfa pasture intake and, by growing-finishing swine, 6
Nutrition of sheep
Effects of high carbon dioxide levels on, 554
Nutritive value of forages
Evaluation of *in vitro* and *in vivo* cecal fermentation techniques for estimating the, for equine, 18

Nutritive value of paddy (Oriza Sativa) straw
Effect of water washing, lime treatment and lime and calcium carbonate supplementation on the, 383

O

Observations, histochemical and biochemical
On muscles from fasted-refed pigs, 746
Opaque-2
Nitrogen balance and growth studies of pigs fed, and normal corn, 478
Ovarian activity
Peritoneoscopy via a chronically implanted cannula to observe, in ewes, 645
Ovarian function
Effect of various dose levels of ICI 33828 on gilt, 227
Ovarian and follicular development
Quantitative variation in, in for genetic groups of pigs at different ages, 780
Ovariectomized ewes
Effect of LH and ovarian hormones on pituitary gondotropin activity in, 550
Ovariectomy, unilateral
Effect of, in the Yorkshire and Poland China prepuberal gilt, 775
Ovulation rate
And subsequent lamb production in the nulliparous and primiparous ewe, 512
Oxygen consumption
Differences in pattern of, by newborn sheep of two breeds, 650
Oxytocin injections
Effects of pig removal and, on ovarian and pituitary changes in mamillectomized postpartum sows, 537

P

Parameters, phenotypic and genotypic
Of some carcass traits in swine, 168
Pasture intake
Estimation of alfalfa, and nutrient utilization by growing-finishing swine, 6
Pasture, irrigated
Supplementation of a dry annual range simulating roughage by use of, 683
Pelleting of forage
Effects of, on the *ad libitum* salt and water consumption and urine excretion of sheep, 563
Performance of pigs
Influence of feeding frequency on lipogenesis and enzymatic activity of adipose tissue and on the, 336
Performance, crossbred in mice
Predicted response to selection for, 725
Performance, lifetime reproductive
Estrus in range lambs and its relationship to, 246
Performance, reproductive
Of Western and Dorset X Western ewes under a fall-lambing program, 734
Peritoneoscopy
Via a chronically implanted cannula to observe ovarian activity in ewes, 645
Phosphatase activities
Luteal and endometrial, during the porcine estrous cycle, 51
Phosphorous requirements
Of growing pigs and effect of steam pelleting on phosphorus availability, 484
Pig, perinatal
Changes in hematology of the, 517
Pig removal
Effects of, and oxytocin injections on ovarian and pituitary changes in mammillectomized postpartum sows, 537
Pituitary suppression
Induction of estrus and ovulation in swine during, with methallibure, 73
Policy, editorial
And proceedings of the Journal of Animal Science, 880
Poloxalene
For bloat prevention in lambs, 819
Polyethylene particles
Short-term voluntary feed intake and rumen volatile fatty acids of steers fed diets diluted with, 84
84
Potassium, comparison of
And other chemical constituents as indices of pork carcass composition, 192
Potassium, dietary
Effects of, upon growth, serum electrolytes and intrarumen environment of finishing beef steers, 557
Potassium nitrate utilization
Effects of inorganic sulfur on, by lambs, 391
Pregnancy diagnosis
In the ewe using an ultrasonic doppler instrument, 44
Preweaning diet
Effect of, on the growth and development of early-weaned lambs, 401
Progestogen, oral
Effects of and, on feedlot heifers, 224
Progestogens
Histological changes in the cow following, 761
Protein
Effect on growth and carcass composition of swine selected for high and low fatness, 831
Protein content of the diet
Effects of, of the young pig on rate and efficiency of gain during early development and subsequent to 23.5 KG., and carcass characteristics and composition of lean tissue, 473
Protein intake
Effect of, on nitrogen retention by swine during late pregnancy, 204
Protein levels
Some effects of differences in dietary energy and, on the ovary and the anterior pituitary gland of the ewe, 57

R

Rabbit
The male, V. Changes in sperm reserves and resorption rate induced by ejaculation and sexual rest, 542
Ultrasonic treatment of, testes, 230
Rations, finishing
Effect of soybean oil, urea, roughage and a progestigin on the utilization of corn based, by beef cattle, 256
Refractometry
Prediction of bovine urine specific gravity and total solids by, 66
Reproduction and growth
Heterotic effects in, to earning in crosses of the Angus, Hereford and Shorthorn breeds, 431

Reproductive capacity of beef bulls
III. Postpuberal changes in fertility and sperm morphology at different ejaculation frequencies, 375
Reproductive phenomena
Some postpartum, in the domestic rabbit, 785
Reproductive tract
Of Holstein bulls from birth through puberty, 233
Retail yield comparison
Of average good and average choice conformation beef carcasses, 187
Roughage in steer rations
Various sources and levels of, 705
Rumen microbial activity
Relation of nitrogen intake to, and consumption of low-quality roughage by sheep, 272
Ruminal epithelial development
Relationship between tolerances toward insulin and, in lambs, 364
Ruminant (ovine) stomach
Normal arterial supply to the, 379
Rumination
Effect of varying amounts of forage intake on, 827
Rumination time
Influence of forage quality on, in sheep, 813

S

Sale price
Bull selection criteria as indicated by, 437
Sarcoplasmic reticulum fractions
Calcium accumulating ability and compositional differences between, from normal and pale, soft, exudative porcine muscle, 589
Sciences, the biological
A base for animal sciences, 110
Sex and sire
Influence of, upon growth and carcass traits of beef cattle, 607
Sheep breeds, combining ability of
Effect of general, and maternal ability of Oxford, Suffolk and North Country Cheviot breeds of sheep on growth performance of lambs, 155
Sorghums, silage and forages
Evaluation of green chop and ensiled, corn, and perennial, using digestion trials and VFA production in sheep, 90
Soybean protein
Effect of level and solubility of, on its utilization by young lambs, 279
Sperm morphology
Reproductive capacity of beef bulls, III. Postpuberal changes in fertility and, at different ejaculation frequencies, 375
Sperm production
The male rabbit. III. Determination of daily, by means of testicular homogenates, 369
Sperm reserves
The male rabbit. V., and resorption rate induced by ejaculation and sexual rest, 542
Steam pelleting
Phosphorus requirements of growing pigs and effect of, on phosphorus availability, 484
Steer carcasses
Relationship of physically separable muscle fat and bone from the left side of, to yields of retail cuts, fat trim and bone of the right side, 311
Stress, environmental
And meat quality, 755
Sulfate, utilization of
Absorption, excretion and maternal-fetal, by the bovine, 283
Sulfur, inorganic
Effects of, on potassium nitrate utilization by lambs, 391
Superovulation
In prepuberal calves on two levels of nutrient intake, 771
Repeated, in calves, 634
Swine diets
Energy and nitrogen evaluation of, containing added fat or corn cobs, 615
Swine leucocytes
Behavor of, during *in vitro* culture, 523

T

Tissue, lean
Effects of protein content of the diet of the young pig on rate and efficiency of gain during early development and subsequent to 23.5 KG., and carcass characteristics and composition of, 473

U

Ulcers, esophagogastric
Influence of fed preparation and number of pigs per pen on performance and occurrence of, in swine, 837
Ultrasonic prediction
Of swine carcass composition, 593
Ultrasonic treatment
Of rabbit testes, 230
Urea diets, high
Factors affecting the utilization of, by finishing steers, 406
Urea nitrogen, utilization of
Effects of corn distillers dried grains with solubles and dehydrated alfalfa meal on, in beef cattle, 412
Urea utilization
In protein supplements for cattle consuming poor quality roughages on the range, 807
Urine specific gravity
Prediction of bovine, and total solids by refractometry, 66
Urolithiasis in sheep
Statistical analysis of blood serum in composition, urine excretion levels and the occurrence of, 714
Statistical analysis of dietary mineral intake and the occurrence of, 386

V

Visual appraisal
Estimation of carcass traits by, of market livestock, 601

Y

Yield of milk
Effects of energy intake, cow body size and calf sex on composition and, by Angus-Holstein cows and preweaning growth rate of progeny, 789
Yields of retail cuts
Relationship of physically separable muscle, fat and bone from the left side of steer carcasses to, fat trim and bone of the right side, 311

AUTHOR INDEX FOR VOLUME 28, NUMBERS 1–6, 1969

Page numbers of abstracts for the National and Sectional Meetings are identified by an asterisk.
